

 <b>DH-2000-BAL</b>	 <b>DH-2000</b>	 <b>DH-Mini</b>	 <b>HPX-2000</b>
Light Source Type	Balanced deuterium tungsten halogen	Deuterium tungsten halogen	Deuterium tungsten halogen	Xenon
Wavelength (nm)	215 - 2500	215 - 2500	215 - 2500	185 - 2000
Price (\$)	\$\$\$	\$\$\$	\$\$	\$\$\$\$
Intensity	High	High	High	High
Bulb/Calibration Life (hours)	1000	1000	1000	1000 - 2000
Differentiators	Suppression of D-alpha line at 655 nm Innovative filtering for smooth spectrum	Deep UV option for 190 - 2500 nm output Shutter option via TTL signal or 5 Hz switch Filter holder option for 25 mm round/square filters	Compact source with intense output Shutter controlled by manual switch or TTL signal LED indicator lights for operating modes	Integrated shutter controlled via TTL signal switch Filter slot option for 25 mm round/square filters High intensity output option
